Career Objective

Motivated and detail-oriented Computer Science graduate seeking a position that bridges technology and management, where I can leverage my skills in Artificial Intelligence, Machine Learning, Data Science, and software development to drive innovative solutions and operational efficiency. With proven experience in team leadership, project management, and cross-functional collaboration, I aim to contribute to a forward-thinking organization that values technical excellence, strategic execution, and continuous growth.

Education

B.Sc. in Computer Science I BRAC University | Dhaka Jan 2021 - Present

- **CGPA:** 3.31/4.00
- Thesis: **Exploring Hematopoiesis Through Machine Learning Integration of RNA Sequencing and CRISPR Data**

Higher Secondary Certificate | Rajuk Uttara Model College 2020

- **GPA:** 5.00/5.00

Secondary School Certificate | Rajuk Uttara Model College 2018

- **GPA:** 5.00/5.00

Extracurricular Activities

Director - Editorial & Publications | BRAC University Robotics Club Feb 2022 – Jul 2025

- Supervised a **20+ member** team; led **communication strategy** and **content execution**.
- Took **strategic leadership** roles in workshops, campaigns, and recruitment.

Assistant Director – Research & Publications | BRAC University Business Club Mar 2022 – Mar 2025

- Mentored **25+ recruits**; coordinated research and editorial efforts across events.
- Oversaw **content planning** and internal communications.

Lead – Media and Content Creation | EDY - Enduring Developments by the Youths Jun 2020 – Oct 2021

- Led the **communication strategy** for a social impact project during COVID-19.
- Managed **outreach**, **sponsorship content**, and online engagement.

The Duke of Edinburgh's International Award — Bronze Mar 2023

- Recognized for completing a structured personal development program including service work, physical activity, skill improvement, and an adventurous journey demonstrating leadership, discipline, and resilience.

Soft Skill

- Leadership & Team Management
- Strategic Planning & Execution
- Communication & Collaboration
- Problem-Solving & Analytical Thinking
- Mentorship & Training

Technical Skill

- Python & SQL
- Data Structures & Algorithms
- Artificial Intelligence & Machine Learning
- Data Science & Analytics
- Project Management

Projects:

- **Multimodal Bridge Framework for Gene Regulatory Network Discovery** - Developed a dual-encoder model integrating CRISPR and RNA-seq data to uncover biologically meaningful, tissue-specific gene regulatory networks.
- **Vegetation Detection Using Satellite Imagery** - Implemented convolutional neural network models to classify vegetation from satellite data for environmental monitoring applications.
- **Tank Wars — 3D Game**- Developed a 3D multiplayer tank battle game with collision detection, scoring system, and interactive controls using object-oriented programming principles.
- **E-Commerce Website** - Built a full-stack online shopping platform with product browsing, cart functionality, user authentication, and responsive UI design using Django and PostgreSQL.
- **Online Library Management System Website** - Online Library Management System Website is a project that provides a platform to manage books, users, and library activities like borrowing and returning books online.

Certification

- **Data Manipulation with pandas** (DataCamp)
- **AI+ Prompt Engineer Level 1™** (AICERTS)
- **Django for Everybody** (Coursera)
- **Understanding Prompt Engineering** (DataCamp)
- **DeepLearning.AI TensorFlow** (Coursera)

Language Proficiency

- **English:** Advance
- **Bengali:** Native
- **French**: Beginner
